

# MECHANICAL COMMISSIONING MANAGER

60–100%

Location: Europe

KW12-E

Nice to have you here. Thank you for your interest.

Hello and Grüessec, I'm [Tobias Schürch](#), Division Manager at INP Switzerland. Our diverse team of around eight experienced experts supports our clients in delivering projects in energy generation, hydrogen production, and power converters. Our services include concept development, sizing, technical design, and preparing documentation. For a comprehensive overview of our capabilities and projects, we recommend taking a look at our [homepage](#).

At INP, we don't just focus on understanding the needs of our employees and clients, we live and breathe our company culture. Transparency, competence, integrity, reliability, and fairness are not just buzzwords for us—they are the values that guide our daily work. If you share these values alongside your technical expertise, you'd be a perfect fit for our team.

With ten years experience as a project engineer, project manager, and sales manager, I bring extensive knowledge and actively support my team in achieving both personal and shared goals. All my colleagues also have a technical background and are happy to assist you with both technical and personal queries.

Do you have questions about the position? Feel free to contact me with any technical queries: +41 56 552 19 28.

P.S. [Here](#) are a few insights from INP and our employees.

## Exciting tasks for you:

- Commissioning of large heavy duty power plants (WSC, BoP, HRSG)
- Commissioning of boilers (Benson / drum type)
- Commissioning of large pumps (main feedwater pumps, main cooling water pumps, main condensate pumps)
- System commissioning of air / oil / steam / water / auxiliary systems
- Organize and supervise the safe operation of the plant from system turnover from Installation until Commercial Operation Date by arrangement with Commissioning Lead / Manager

## What's in it for you?

- We are well networked leading us to get the really exciting projects of well-known clients.
- All your skills, knowledge and experience are required
- What we want from you, you can also expect from us: We give our full commitment and care.
- In between projects, you can take some time off and pursue your personal dreams.
- INP is valued as a loyal, reliable company for which the employees are noticeably important.

## How you can help us:

- Bsc. of mechanical engineering or higher
- 3+ years of experience working with Mechanical Systems for a power generation OEM
- Working knowledge and application of EHS rules.
- Able to connect and communicate across all levels of site personnel and internal colleagues/stakeholders.
- Knowledge of KKS system and Operation level knowledge of DCS systems
- Excellent English language skills
- Willing to travel internationally

- Our team spirit is at an all-time high. For this we also put in a lot of effort. We choose our management carefully, uphold our values and encourage the special bond within our team with events like the ski weekend.
- Outstanding support: We provide you with information, good equipment and plenty of support to make your everyday life easier. For example, we use simple, quick expense reports.
- You can find out more about the advantages of working with INP Schweiz [here](#).
