Nice to have you here. Thank you for your interest.

I'm [Ben Goepfert](#) and I work in the division of [Medium Voltage and Industrial Plants](#). We are an international team of more than 20 experts. Planning, installation supervision, site management and commissioning of electrical infrastructure of industrial plants are our main strengths. We are particularly proud of our assignments in the [Mine Moatize, Mozambique](#), or that we were able to contribute our know-how to the [Jura Cement factory in Wildegg \(CH\)](#).

I have been supporting the MVI division for some time now and that is why I know that not only flexibility, but also openness and communication skills are important to us. You are a real asset if you possess these qualities in addition to your technical experience. We are happy to support our employees in technical - such as in personal matters as far as we can. Our [values](#) are the foundation of our company, that is why identifying with our values is very important to us. Over 10 years of experience in commissioning and project management are part of my background, how about you?

I look forward to receiving your application and getting to know you. Just give me a call if you have any questions: +41 56 552 19 07.

P.S. You can get to know more about some of the INP team [here](#).

Exciting tasks for you:

- Leading and supervising installation teams on international construction sites is one of your main tasks
- Daily responsibilities include overseeing electrical installations in the LV/MV sector
- As a liaison between end customers and subcontractors, you are a valuable addition to the construction site
- You also hold overarching responsibilities for ensuring a safe and timely project execution

How you can help us:

- You have a basic electrical education (electrician or equivalent)
- Several years of practical experience in cable routing, cable tray installation, switchgear, and transformer installations in the low and medium voltage sectors
- Experience in installation and supervision in the low and medium voltage sectors
- You have accumulated at least 5 years of experience in industrial plants and/or power stations
- You have leadership experience and are familiar with scheduling
- You can communicate effectively in English
- Valid work permit in Europe

What's in it for you?

- We are well networked leading us to get the really exciting projects of well-known clients
- In between projects, you can take some time off and pursue your personal dreams
- With 100 employees, we are the perfect size for collaborative thinking and communicating, allowing us to shape and grow together
- Many further training opportunities are available to you: We generously co-finance internal training sessions as well as

- Healthy growth: In 20 years, we have grown from a handful of visionaries to numerous professionals
- We have kept our family spirit and look after each other.
- Only well-informed employees can deliver optimal performance. That is why we regularly provide transparent information.
- You can find out more about the advantages of working with INP Schweiz [here](#).
