

COMMISSIONING ENGINEER – DATA CENTERS

100%

Location: Weltweit

MSIS35-E

Nice to have you here. Thank you for your interest.

Hello, I'm Zeljko Mirkovic, and I work in the division of High Voltage and Industrial Plants.

We are an international team of more than 30 professionals. Planning, installation supervision, site management and commissioning of electrical infrastructure for industrial plants are among our key strengths. I have been working in the industry sector for 19 years and know how important fairness, trust, and technical expertise are for successful collaboration.

At INP Schweiz, we aim to create a working environment where every employee feels valued, supported, and able to contribute their strengths. INP is not just a workplace to me; it is a team shaped by openness, reliability, and genuine collaboration. We are always pleased to connect with people who share our values and want to contribute with their expertise to challenging international projects.

If you have any questions or would like to learn more, please contact me at +41 56 552 19 39.

P.S. You can get to know more about some of the INP team here.

Exciting tasks for you:

- Lead and execute commissioning activities for Data Center electrical systems and equipment
- Inspection, configuration, testing, start-up and commissioning activities for electrical systems and equipment
- Coordinate and collaborate closely with customers, subcontractors and multidisciplinary project teams
- Ensure compliance with local regulations, standards and guidelines
- Maintain daily communication with customers, subcontractors and internal back-office teams
- Prepare commissioning documentation and test scripts

How you can help us:

- Degree in Electrical or Mechanical Engineering with at least two years of experience in Data Centers
- Strong technical knowledge of electrical equipment e.g.: Trafos, MV/LV switchgear, Diesel Generators, BESS, UPS, etc.
- Team player with strong communication skills and the ability to work effectively with international customers, subcontractors and colleagues
- Willingness to travel and work within Europe on challenging Data Center projects
- Fluent English required (German is an advantage)
- Valid work permit in EU

What's in it for you?

- We generously co-finance internal training sessions as well as external training seminars
- Hire an Fire? Not here! We do not believe in "Hire and Fire" policies
- Work life balance: we lay the foundations for a healthy balance
- In the INP team you can count on a network of like-minded people and advice from other experienced experts
- Over the last 25 years, we have grown from a handful of visionaries to several dozen professionals
- We have kept our family spirit and look after each other
- Only well-informed employees can deliver optimal performance. That is why we regularly provide transparent information
